Wilburta Goolsby

Cybersecurity Specialist

👤 Profile

Cybersecurity Specialist with a solid foundation in programming and network security, honed over 1 year of experience in the field. Strong knowledge of cyber threat landscape, and experienced in implementing security measures to protect data integrity and confidentiality. Proficient in various security technologies, security policy development, and vulnerability assessments. Demonstrated ability to work collaboratively in a team and communicate complex cybersecurity concepts effectively. Committed to staying current with emerging technologies and cybersecurity trends.

💼 Employment History

Cybersecurity Specialist at Cybersecurity Ventures, NJ

May 2023 - Present

- Developed and implemented a new intrusion detection system that reduced network breaches by 80% within the first year of its launch.
- Led a team that conducted comprehensive vulnerability assessments for over 50 client systems, identifying and addressing an average of 30 high-risk vulnerabilities per system.
- Successfully trained over 200 employees in cybersecurity best practices, resulting in a 60% reduction in user-related security incidents within one year.

Associate Cybersecurity Specialist at Net Tech Logic, NJ

Sep 2022 - Apr 2023

- Successfully led a team that implemented a new firewall architecture across the company, boosting the network's security by 40% and reducing security incidents by 30%.
- Conducted an extensive company-wide cybersecurity audit that identified and rectified 200+ potential vulnerabilities, resulting in a 50% reduction in potential attack vectors.
- Developed and delivered cybersecurity training to over 500 employees, increasing staff awareness and understanding of cyber threats, which led to a 25% decrease in user-related security incidents.
